

S/2008 CABLE Ø4 - VERTICAL AND DROP ARM AWNING

BULLONERIE
INOX ANTIGRIP

Mounting bracket

S/2008 CABLE Ø4 is a vertical awning with stainless steel cable Ø4.

This type of awning is very commonly used for balconies, windows and verandas.

S/2008 comes with an aluminium cassette mm.111 x H.mm.127, which can be partially opened. In the cassette is fitted a cap cover brush to brush any water or dirt from the PVC / acrylic fabric.

The awning can be wall mounted or installed on the ceiling.

S/2008 can be either electrically or manually operated by a gear.
